

NATRAKLEEN

Natra-Kleen Natural Sanitiser

Is a unique and highly innovative natural sanitiser; research undertaken indicates that our formula is unique and offers significant advantages over all other Sanitisers available. **NATRA-KLEEN Natural Sanitiser** is designed to be effective, reliable and powerful, while at the same time being gentle on individuals and the environment.

NATRA-KLEEN Natural Sanitiser is *non-toxic, non-hazardous*, and is formulated from all-natural ingredients that can be used for general household and commercial applications. It is ideally suited for use in **food preparation areas** in **cafes, restaurants, childcare centres, schools**, or anywhere that a sanitiser is required

NATRA-KLEEN Natural Sanitiser eliminates unpleasant odours, instead of covering them up, without using artificial dyes or fragrances. It has a slight chlorine odour but has no chlorine in it.

Product Attributes

NATRA-KLEEN Natural Sanitiser is a 100% natural sanitiser. Unlike most other sanitisers there is no QUAT (Quaternary ammonium cations) in **Natra-Kleen Natural Sanitiser**. It will not cause damage to skin, create respiratory problems or rot the clothing of the user.

NATRA-KLEEN Natural Sanitiser spontaneously decomposes to water, salt and oxygen once it is applied to a surface meaning there is no need to rinse off. If applied to skin it will not burn or harm skin.
